and LEARN SEMINAR

Thursday, June 3rd, 2010
11:00 am - 12:30 pm

Marriott West Minneapolis
9960 Wayzata Blvd.
St. Louis Park, MN 55426

Virtualizing Storage and Servers on a Shoestring Budget

Learn how to minimize spending and still get the features you need ■ Better Business Continuity
■ Simplified Server Management ■ Reduction of Support Demands ■ Application Compatibility

Join [CyberAdvisors](#) and Dell for our free lunch and learn:
Virtualizing Storage and Servers on a Shoestring

VIRTUALIZED ENVIRONMENT DEMO includes:

Building an infrastructure with Dell servers designed with better capacity, processing power - customized for virtualization.

Entry level iSCSI SANs from Dell EqualLogic providing enterprise-level features and functionality crucial for your virtual environment and DR scenarios.

Utilizing VMWare's small business bundles to cost-effectively start virtualizing your environment.

Understand how Cyber Advisors can customize these solutions into a great virtualized solution for you... on a shoestring.
